EDUCATION

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech	IIT BHU , Varanasi	National University	7.86	2021-2025
Senior Secondary	Chinmaya Vidyalyaya	CBSE	91.6%	2021
Matriculation	Chinmaya Vidyalyaya	CBSE	95%	2019

EXPERIENCE

• Tata Consultancy Services (TCS)

Jan 2026 – Present

GenAI development - Building AI agents, Worked for **AMD Ryzen** (Client side) on **CI-CD** Operations

- Developed an **Autonomous Agentic AI** system using **LangGraph** and **Bright Data** tool to scrape the web and analyze NSE market news, financial market and deliver a data-driven buy and sell price recommendations in Indian stocks.
- Monitored and fixed **20+ CIs - Ryzen** and its components across the Organization Deployed in both **GitHub Actions** and **Jenkins** performing **Triage** operations for build failures (**Reverting PR, cleanup disks spaces, Retrigger IVTs, Retry logic for transient failure etc.**) as a daily routine.Launched regressions both **Vaiml** and **CP plus** on different machines using the **Jenkins** job on the final daily candidate **Test Artifacts**. Done a total of **100+** contributions across the **ORG**.
- **Improved efficiency** and **Pace** in recovery of the **CIs** by **automating** daily **triage** operations including **Automated Retriggering**, Tracking **IVTs** , **Automated** raising **JIRA** tickets for failed **DLL** owners etc. Created an **automation workflow script** to closely monitor and alert **CI** failures across all the production branches through **Teams notification** with exact **failure-log** details and solution to fix by click options based on **historically** repeating error details coming from the **NFS**.

Breathe ESG

Sept 2025 – Dec 2025

Software Development Engineer Intern (SDET) - Product-based-startup

- Developed **10+ APIs** using **Python Django** and **5+ models** in **PostgreSQL** to facilitate external client collaboration, process **Scope 3 ESG calculations** based on user survey responses, **APIs** for **bulk data upload** and single entry of **ESG** metrics etc.
- Worked on Frontend **React** and **RTK** based on client requirements, implemented **OTP + PIN login** feature, identified and resolved **UI** bugs addressed by the team along with building survey screens matching to the **figma design** shared.
- Declared **events** on the existing features, creating funnels and performing **Product analytics** using **PostHog**- Client side and **DataDogs** for **TTL for APIs** and health checks across projects to check the most used features and improvements to work on.

PROJECTS

• Chatify | Real time Flirt Web-application

A fully functioning chat-flirt-app with secure messaging functionality.

Chatify Link

- Developed a feature-rich Flirt Application using **MERN** stack and **Socket.IO**, enabling real-time messaging between users, and integrated a secure password hashing using **BcryptJS** to facilitate security and **token** based verification.
- Integrated **Gemini API** for flirt suggestions based on chat history, online status tracking with **Tailwind CSS** and **DaisyUI**.
- Implemented **JWT** authentication with **HTTP**-only cookies, protected routes, and message state management using **Zustand**.

• AI Translator | Web-App build on integration of Gemini api key

Demo Link

A Online platform along with google auth functionality

- Built an image translation web application using the **MERN** stack and **Gemini API**, allowing users to upload images using **multer**, containing text in **Hindi** or **English** for automatic translation after successfully surpassing the **google auth**.
- Implemented a prompt-driven system triggering the Gemini API after image upload,to extract text, and translates it to the **opposite language** (**Hindi → English** or **English → Hindi**) null response is generated if the text is in another language.
- Displayed the translated result as fully **editable text** in the UI, enhancing user experience by enabling real-time content updates and improved accessibility.

SKILLS

- Programming Languages:** C++, Python, HTML, CSS, JavaScript, SQL, YAML(baiscs)
- Tools & frameworks:** GitHub Actions, Jenkins, PostHog, DataDogs Grafana, Django, FastAPI, MongoDB, PostgreSQL
- Areas of Interest:** Data structures & Algorithms, CI-CD, Automation workflows, Agentic AI, Developement, OOPS

ACHIEVEMENTS AND EXTRA-CURRICULAR

- Ranked top **3 percentile** in **JEE Main'21** and secured AIR of **11916** with zero gap year in **JEE ADVANCED'21**
- Rated **4 star** on **GFG** with maximum rating of **1844** and solved **700+** questions across different platforms.
- Portfolio Link
